 8/82,Kulathuvilai,Thengamputhoor(PO), kanyakumari district.

SKILLS

- Linux
- MySQL, MongoDB and PostgreSQL
- Database Maintenance & Monitoring
- Node.js with NestJS, REST APIs, WebSocket
- Basics of Amazon Web Services(AWS)
- HTML, CSS and Tailwind CSS
- JavaScript and TypeScript
- Swagger, GitHub, Postman
- Query Tuning
- Technical Writing (published on Medium)

EDUCATION

BE- EEE
Rohini College of Engineering & Technology
2018-2021

Diploma-EEE
N M S Kamaraj Polytechnic College
2016-2018

CERTIFICATIONS

Fullstack Web Development with MERN Stack.

Course in Advance JAVA.

Introduction to Artificial Intelligence.

LANGUAGES

English

Tamil

PROFILE

To contribute to an innovative organization where I can leverage my backend development expertise in Node.js, Nest.js, and databases such as MySQL, MongoDB, and PostgreSQL, and to work collaboratively in a team dedicated to the dynamic growth of the company.Eager to learn and adapt to new technologies and features.

WORK EXPERIENCE

Junior Software Engineer

Perfectz Digital

2023-Ongoing

- Developed and maintained web applications using React.js and Node.js.
- Created and managed RESTful APIs for seamless frontend-backend communication.
- Gained hands-on experience with WebSockets for real-time data transmission.
- Worked with the NestJS framework for building scalable and efficient server-side applications.
- Implemented UI components with React.js and styled using Tailwind and CSS.
- Gained knowledge of database management with MySQL and MongoDB.

Database Administrator

Mafiree

2022-2023

- Database Maintenance & Monitoring
- Managed database access control, user roles, and permissions.
- Collaborated with developers to optimize query performance in applications.
- Monitored database performance metrics and identified potential bottlenecks, contributing to system optimization.
- Identified and terminated long-running or problematic queries to prevent system slowdowns and ensure optimal database performance.
- Analyzed query execution plans to identify potential performance issues and made necessary adjustments to indexes and query structures

PROJECTS

QuizCircles

Contribute to the development of the Quiz Game Website, utilizing technologies such as React.js, Nest.js, Node.js, and Tailwind CSS

- Ensures UI consistency with Figma design.
- Handles backend code deployment
- Worked on WebSocket implementation
- Manages APIs and functionalities.

Voyager

Voyager is a tracking website platform built on a foundation of Node.js, using the Nest.js framework.

- Worked on Backend API creation and functionalities
- Worked on swagger API integration
- Deployment and build distribution
